COPPER STOCKS VERY WEAK

Effect of New York City Bond Sale Is Factor of Strength.

NEW YORK, September 11 .- Senti ent of speculators so far as it could be read in the action of the stock market was in a state of flux to-day market was in a state of flux to-day. The tide of the price movement shifted constantly in response to conflicting influences first on one side and then on the other. The weakness of the copper stocks made a distinct line of cleavage through the market as it did yesterday, but this weakness was later in asserting its sentimental effect on the general list, and that effect was not so marked as yesterday. Prices of the metal went lower, both in London and at the New York Metal Exchange, and this was the dominant factor in the Copper industrials. The general marat the New York Metal Exchange, and this was the dominant factor in the Copper industrials. The general market was inclined to resist this influence, and at times did so successfully. The movement was still called largely professional and shorts left uncovered after yesterday's declines were given credit for much of the buying. The New York City bond sale was of more cheering effect on opinion to-day than was the case with the imperfect knowledge of the details of the transactions in possession of the market yesterday. More weight was given to the oversubscription of five times, and to the large number of nearly 1,047 bidders and less to the low price, as considered, for the average bids.

Call money showed a relaxing tendency after the strain of the preparation for the New York bonds ran to a total of over \$200,000 there was naturally some resources for which preparation was found unnecessary and which were thus released.

Total to-day 1,405.

there was naturally some resources for which preparation was found unnecessary and which were thus released. The many fluctuations during the day left inconsiderable net changes, after all, the closing being firm at a rally. Bonds were irregular. Total sales, par value, \$98,090. United States registered 2s advanced 1-4 per cent. on call. Total sales to-day stocks, 613,000 shares.

NEW YORK, September 11.—Money on call firm, 3@51-2 per cent; ruling rate, 5; closing bid, 3; offered at 31-2. Time loans easier; sixty days, 51-2 per cent; ninety days, 6 per cent; six months, 6 per cent. Prime inercantile paper, 6:1-2@7 per cent. Sterling exchange weak, with actual business in bankers' bills at \$4.555@\$4.8560 for sixty-day bills. Commerciat bills, \$4.81-2@\$4.815. Bar silver, 6:73-4, Mexican dollars, 525-8. Government bonds firm. Railroad bonds irregular.

COTTON MARKETS.

NEW YORK. September 11.—The cotton market was more or less nervous and irregular to-day, owing, in part to uncertainty as to the action of the revision committee after the close to-night. The close was steady, at an advance of eleven points on September, of three points on October, and one point lower to one point higher on later months. Sales were estimated at 250,000 bales. The opening was steady, at an advance of two points on near months, which were influenced by moderate built support to a decline of four points in the later positions, as a result of lower cable and good weather over the South. After the opening prices worked up to a net advance of 4 % 5 points on an active demand mand from some of the recent heavy sellenges. But at the advance there was selling by spot people and the South and the market eased off to net decline of 3 % 5 points with the low level of yesterday. There was a renewal of covering at this level, and one time in the afternoon prices were 8 to 15 points net higher. September being read to the set under realizing.

Receipts a the ports to oday were 13,466 bales, against 7,070 last week and 1 9 5 prices. The condition of the points on the best under realizing.
